

Jprompt Computer Education Center (I. C.T. Training)

Duration 6weeks

Diploma in Practical Networking

Practical Networking Course Curriculum

NETWORKING

Introduction to Networking
Types of Networks
Network Media & Network Cabling and its types
Network Interface card, its configuration & settings
Wireless Networking
Access Methods (CSMA/CD, CSMA/CA, TOKEN PASSING)
Ethernet, Token Ring, Apple Talk & Are Net
Network Operating systems in Multi Vender Environment
Open Systems Interconnection (OSI) Reference model
IEEE 802.X standard Categories
Transmission Control Protocol/ Internet protocol (TCP/IP)
Modern technology
Wide Area Network (WAN)
Hubs, Switches, Routers, Bridges Gate ways.
Network shares & Users Accounts
Planning & Ensuring Network Security
Installing & Managing Network printers
Network Administration & Troubleshooting

This is your best opportunity to be associated with a market leader
